## PALMER NOTATION

Palmer notation is a system used by dentists to associate information to a specific tooth. The Palmer notation consists of a symbol ( R L 7 6 ) designating in which quadrant the tooth is found and a number indicating the position from the midline

## FDI NUMBERING SYSTEM

The FDI system uses a two-digit numbering system in which the first number represents a tooth's quadrant and the second number represents the number of the tooth from the midline of the face. For permanent teeth, the upper right teeth begin with the number, "1". The upper left teeth begin with the number, "2". The lower left teeth begin with the number, "3". The lower right teeth begin with the number, "4".
